

ADA Mirror Submittal Checklist

Complete one sheet per mirror type or room condition. Dimensions: select inches or mm.

01 PROJECT & DRAWING RECORD

Project / location / room / mirror ID:

Drawing number / revision / date / prepared by:

Governing code edition / specification / project reviewer:

02 GEOMETRY & HEIGHT COORDINATION

Location: above lavatory or countertop / elsewhere Units: in / mm

Overall W x H: Clear reflective W x H: Lower offset:

Product bottom AFF: Reflecting-surface bottom AFF: Mirror top AFF:

Lavatory / counter AFF: Faucet / backsplash clearance:

03 INSTALLATION & FIELD CHECK

Wall / blocking / bracket / fixing detail: Power entry / LED configuration:

Field reading / room ID / measurement date / checked by:

Open corrections / responsible party / follow-up date:

HEIGHT CHECK / AFF = ABOVE FINISHED FLOOR

Reflecting-surface bottom: 40 in (1015 mm) max above lavatory/countertop; 35 in (890 mm) max elsewhere. Mirror top: 74 in (1880 mm) min is advisory.
Maximum product bottom AFF = applicable limit - lower non-reflective offset.
Use vertical offsets from the drawing; bracket elevation is a separate dimension.
Record design and field checks separately. This worksheet is not compliance certification.
